Experience

Providence Acres Farms (Shanksville, PA)

General Farm Hand – November 2013 – 2015 (Current)

- Tended to animals and organic vegetable production and also aided with farmers markets when needed.
- Helped maintain equipment and general carpentry, welding, plumbing on various buildings and equipment.

Horn O' Plenty Farm (Manns Choice, PA)

General Farm Hand – May 2015

- I volunteered to work for Jeff Horn for a month to further my knowledge in organic farming practices.

City of Greenville, NC

Civil Engineer I – July 2007 to July 2013

- Project Manager for various capital improvement projects. Write contract documents, design, drafting, cost estimating, oversee bid process, construction management, process pay requests, and project close outs.
- Administrated the sedimentation and erosion control program for the City
 - Review erosion and sedimentation control plans and hydraulic calculations and inspected all construction sites.
- Developed the City's street lighting standard and orchestrated all necessary meetings and approvals which involved independent research and public speaking
- Reviewed Stormwater management plans

Pennsylvania Department of Transportation – District 9

Engineering Intern – May 2005 to October 2005 & May 2006 to August 2006

- Calculated field quantities of concrete and rebar during bridge construction
- Wrote daily reports on project site activities for bridge construction
- Calculated pay quantities for asphalt road resurfacing projects
- Scribed field notes during asphalt pavement construction

Benchmark Engineering and Construction Co. Inc.

Civil Engineering Intern – May 2004 to December 2006

- Surveying and drafting
- Computed sewage pipe grades using Microsoft Excel
- Received training in sanitary sewer sand mound design and DEP permit applications for stream encroachments

Benchmark Engineering is a ten personnel firm whose main focus is land surveying, drafting, and general civil engineering
