**To Whom It May Concern:**

It is my pleasure to write a letter in support of Sweet Fields on behalf of Guppy's of Montgomery County. Guppy's loves making sure we are serving fresh never frozen food to our customers. We strongly believe in No Preservatives! We also are in full support of helping local companies. We only have all local PA beers on draft as well! We understand that the goals of Sweet Fields include:

1. Bringing fresh, local produce to Montgomery County.
2. Offering residents the opportunity to work in exchange for food (workshares).
3. Hosting unique and practical programs that teach skills like gardening and cooking, which are open to the community.
4. Designing educational opportunities for local school children, particularly about sustainable living, sustainable agriculture and nutrition.
5. Creating local jobs.
6. Improve Norristown Farm Park facilities and amenities.
7. Increasing visitors to the Norristown area.

At Guppy's we love knowing we are giving people fresh, local, healthy, delicious food! All of our entrees right now when ordered are feeding 10 people with Feeding America. We have fed over 55,000 people just last month! We also always have a Philabundance Burger of the Month where we donate to help them as well! We love helping our community! We fully support the efforts of Sweet Fields as they seek external funding and a sub-lease for this program designed for high community involvement, and preserving open space.

Sincerely,

**Shannon McFadden**

**( Manager of Guppy's East Norriton )**
